Modular Devices Inc. Introduces the availability of 3.3 VDC and 5 VDC output voltages in the 100 Watt DC-DC Converter series.

MDI has extended the output voltages available in the radiation hardened 100 W range as follows:

For nominal 28 VDC buses, [5031A-S03.3](#) delivers 3.3 VDC at 20 amperes.

For nominal 28 VDC buses, [5031A-S05](#) delivers 5 VDC at 20 amperes.

For nominal 50 VDC buses, [7031A-S03.3](#) delivers 3.3 VDC at 20 amperes.

For nominal 50 VDC buses, [7031A-S05](#) delivers 5 VDC at 20 amperes.

For nominal 70 VDC buses, [8031A-S03.3](#) delivers 3.3 VDC at 20 amperes.

For nominal 70 VDC buses, [8031A-S05](#) delivers 5 VDC at 20 amperes.

For nominal 100 VDC buses, [9031A-S03.3](#) delivers 3.3 VDC at 20 amperes.

For nominal 100 VDC buses, [9031A-S05](#) delivers 5 VDC at 20 amperes.
